

Atlas Preventative Maintenance Program

Preventive maintenance is critical in order for your instrument to operate at peak performance. The AMECARE Performance Services Program by Atlas combines Atlas' years of service experience and best maintenance practices to ensure that your instrument will operate optimally at all times.

The AMECARE program is designed to provide selected instrument parts and services you need at a **fixed yearly price** depending upon usage and the AMECARE program level of coverage you select.

Key Benefits of the Atlas AMECARE Program:

- Regularly scheduled inspections and required maintenance intervals are maintained to identify and correct any potential failures or issues before they occur
- Scheduled ISO 17025 accredited calibrations are performed to comply with both manufacturers requirements and most internal quality standards
- Assurance of long-term and optimal instrument performance
- Detailed service reports with a professional assessment of key components
- Priority support and response times
- Discount on repair parts and consumables
- Priority scheduling of on-site visits

Ensuring peak performance and maximum return on investment over the life of your equipment.

We will deliver this by:

- Proactively maintaining your equipment to maximize operational uptime of your instrument
- Optimizing solutions to meet your unique applications
- Enhancing user skills by providing access to product application experts and training

Contact your local Atlas Sales or Service Technician to discuss the AMECARE program and what level of service would best suit your needs.
